

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### **Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

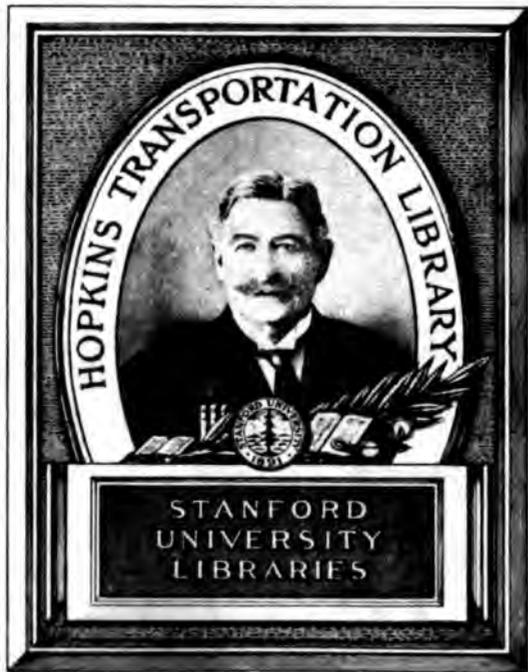

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### **About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

LLOYD'S REGISTER  
OF  
BRITISH AND FOREIGN  
SHIPPING.

---

ESTABLISHED 1834.

---

UNITED WITH THE  
UNDERWRITERS' REGISTRY FOR IRON VESSELS IN 1885.

---

*From 1st July, 1889, to the 30th June, 1890.*

---

The REGISTER,—which is printed solely for the information of Merchants, Shipowners, Underwriters, and others, being Subscribers or Members,—contains, in addition to the names, class, and other useful particulars relating to vessels classed by the Society, and those classed by the Underwriters' Registry for Iron Vessels, the names, dimensions, &c., of *all* vessels of 100 tons and upwards registered in the United Kingdom, some of which, although not classed by the Society, may be classed elsewhere.

The conditions regulating the classification of vessels in the REGISTER are contained in the Society's Rules.

The KEY to the REGISTER precedes the List of Vessels.

OFFICE: 2, WHITE LION COURT, CORNHILL, LONDON.

**KEY TO THE REGISTER.**

1889—90.

# KEY TO SYMBOLS OF CLASSIFICATION IN REGISTER BOOK.

## CLASSIFICATION OF LLOYD'S REGISTER.

- \*A1 ..... Character of Iron vessels built with thicker plating than the Rules now require.
- △1 △1 △1 ..... Characters of Iron ships built according to the Rules of the Society in force between the years 1864 and 1871.
- A1 ..... Without a numeral prefixed, character of Iron vessels built for a special purpose.
- 100A1 95A1 }  
90A1 85A1 } Characters of ships built of Iron or Steel according to the Rules of the Society for Iron ships since 1880.  
80A1 75A1 }
- A 1 ..... Character of Wood or Composite ships of the first class well and sufficiently equipped. The figures in column 18 indicate the term of years assigned originally or on continuation on the character A.
- A 1 ..... Character of ships which have passed period assigned on original Survey, or Continuation, or Restoration, and of ships, not having an original Character, which are found to be fit to carry dry and perishable goods to and from all parts of the world.
- E 1 ..... Character of ships fit for conveyance of dry and perishable goods on short voyages, and cargoes not in their nature subject to sea damage on any voyage.
- E 1 ..... Character of ships which have been found on survey fit for the conveyance of cargoes not in their nature subject to sea damage on any voyage.
- 1 F 2 F ..... Characters assigned to Foreign Built Ships—now discontinued.

The figure 1 affixed to a character signifies that the vessel is well and sufficiently equipped. A line after the A (thus, A—) signifies that the equipment is deficient from that required by the Rules.

A ring over the figure 1, thus ⊕, indicates defects in the masts or rigging of a Sailing ship imperilling the vessel's safety.

A red ring over the figure 1, thus ⊕, indicates defects in the engines and boilers of a steam ship imperilling the vessel's safety.

## CLASSIFICATION OF THE UNDERWRITERS' REGISTRY.

A1<sup>+</sup>, A1<sup>+</sup> ..... Characters of Iron or Steel Vessels built in excess of the Rules and of extra quality of Iron.

A1<sup>\*</sup>, A1<sup>\*</sup>; A1, A1; A, A Characters of Iron, Steel, or Composite Vessels built according to the Rules.

Vessels classed in Red have been built under the inspection of the Surveyors to the Liverpool Registry.

The figure 1 or 2 affixed to Symbols of Classification signifies the Character of Equipment.

The figures in the fifteenth Column represent the mean drafts corresponding to an immersion of 65, 70, 75, and 80 per cent. respectively, as assigned by the Underwriters' Registry, but these drafts do not indicate approved load lines.

All vessels are required to be surveyed periodically. The date of Survey only certifies to their state of efficiency at that time.

N.B.—In reference to the Rules above quoted, and in order to prevent the disappointment arising from Ships losing their Characters from want of survey, it is hereby intimated that the duty of giving NOTICE OF PERIODICAL SURVEYS required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

## ABBREVIATIONS (Alphabetically arranged) AND SIGNS.

Abbreviation or Sign.	No. of Col. in Register Book.	Signification.	Abbreviation or Sign.	No. of Col. in Register Book.	Signification.
A.					
a, or at...	13	Equipment letter, as per Table No. 22.	Asp. ....	2	Asphalted.
(a) .....	7	Shell, end plates, furnaces and combustion chamber of boiler made of steel; stays of iron.	Awning dk.	2&3	Built according to the Rules for Awning Decked vessels. Section 43. See Fig. 8 of Illustrations of Types of Vessels following KEY to REGISTER.
A. ....	7	Ash (timber).	B.		
A.S.C.F. ...	12	Anchors and Chains proved at a Public Machine recognised by the Committee of LLOYD'S REGISTER. See Table No. 22.	b, or bt ...	13	Equipment letter, as per Table No. 22.
Alm. rb.	7	Almost rebuilt,—with date of the work.	(b) .....	7	Shell, stays and end plates of boiler made of iron; furnaces and combustion chamber of steel.
Alt. ...	7	Altered, with date.	B.B. ....	7	Black Birch (timber).
A.P. ...	12	Anchors proved at a Machine recognised by the Committee of LLOYD'S REGISTER. See Table No. 22.	Bh. ....	7	Beech (timber).
A.P.T. ..	10	After Peak Tank. See Illustration following KEY to REGISTER.	B.D. ....	5	Bridge Deck. See Illustrations of Types of Vessels following KEY to REGISTER.
			B.Hds. ...	2	Bulkheads, with number of same prefixed.

A List of Surveying Ports will be found at the end of the KEY TO REGISTER.

**KEY TO ABBREVIATIONS AND SIGNS—continued.**

Abbreviation or Sign.	No. of Col. in Register Book.	Signification.	Abbreviation or Sign.	No. of Col. in Register Book.	Signification.
B. & M. S.	7	Boilers and Machinery Surveyed, with date, denoting that the Boilers and Machinery, though not fitted strictly in accordance with the Rules, were found, upon inspection at that time, to be in good condition.			<b>D.</b>
B. S.	7	Boilers Surveyed, with date, denoting that the Boilers were found, upon inspection at that time, to be in good condition.	<i>d</i> , or <i>d+</i> ...	13	Equipment letter, as per Table No. 22.
B. S.	7	Boilers Surveyed, with date, denoting that the Boilers were found, upon inspection at that time, to be in good condition.	( <i>d</i> )	7	Shell and end plates of boiler made of steel; stays, furnaces, and combustion chamber of iron.
B. S. ....	10	Subject to Biennial Survey.	<i>d</i> .....	2	Doubled with Wood.
Bk. ....	2	Bark (Barque).	<i>D</i> .....	7	Diagonal Engines.
Bkn. ....	2	Barkentine (Barquentine).	<i>D. E.</i> .....	10	Double Bottom. See Illustration following KEY to REGISTER.
Bg. ....	2	Brig.	<i>D. E. a.</i> ...	10	Double Bottom, aft. See Illustration following KEY to REGISTER.
Bn. ....	2	Brigantine.	<i>D. E. f.</i> ...	10	Double bottom, forward. See Illustration following KEY to REGISTER.
Brk. ....	5	Break Deck. (See <i>R. Q. D.</i> in Figs. 4 and 6 of Illustrations of Types of Vessels following KEY to REGISTER.)	<i>D. E.</i> .....	10	Double bottom under Engines and Boilers. See Illustration following KEY to REGISTER.
		<b>C.</b>	<i>D. E.</i> under <i>E. &amp; B.</i>		
<i>c</i> , or <i>ct</i> ...	13	Equipment letter, as per Table No. 22.	<i>dd</i> .....	7	Decks Doubled.
( <i>c</i> )	7	Shell and stays of boiler made of iron; end plates, furnaces and combustion chamber of steel.	<i>d. r. &amp; s.</i>	7	Decks Felted and Sheathed.
<i>C</i> .....	2	Sheathed with Copper.	<i>dia. d.</i> ...	2	Bottom diagonally doubled with Wood.
<i>Cy.</i> .....	7	Cedar (timber).	<i>Dks.</i> .....	2&3	Decks, with number prefixed thus, 2 <i>Dks.</i>
<i>Chs.</i> .....	7	Chestnut (timber).	2 <i>Dks (Iron)</i>	2&3	2 Decks of Iron, (or Steel).
<i>C.</i> .....	7	Compound Engines.	or ( <i>Steel</i> )		
<i>C.</i> .....	13	Placed before figures signifies the number of years for which the Vessel had been Continued.	2 <i>Dks (Iron - Uws)</i>	2&3	2 Decks of Iron, the Upper one being sheathed or covered with wood.
<i>C. B.</i> .....	2	Fastened with Copper or Yellow Metal Bolts, as per paragraph No. 3, Section 46 of Rules for Wood Ships.	<i>Dr.</i> .....	2	Dogger (rig).
<i>c. f.</i> .....	2	Fastened with Copper or Yellow Metal bolts, as per paragraph No. 1 in Section 46 of Rules for Wood Ships.	<i>drp.</i> .....	7	Damage repairs to Ship.
<i>C. F.</i> .....	2	Fastened with Copper or Yellow Metal bolts, as per paragraph No. 2 in Section 46 of Rules for Wood Ships. Also for Copper or Yellow Metal fastenings of Composite ships, as per paragraph No. 1, page 129.	<i>drp.</i>	7	Damage repairs to Machinery.
<b>C. F.</b> ...	2	Fastened with Copper or Yellow Metal bolts for Composite ships, as per paragraph No. 2, page 129.			<b>E.</b>
<i>c. p.</i> .....	13	Chains proved at a Public Machine recognized by the Committee of LLOYD'S REGISTER. See Table No. 22.	<i>e.</i> .....	13	Equipment letter, as per Table No. 22.
<i>Cell. D. B.</i>	10	Cellular construction of Double Bottom. See Illustration following KEY to REGISTER.	( <i>e</i> )	7	Shell of boiler made of steel; stays, end plates, furnaces, and combustion chamber of iron.
<i>Cem.</i> .....	2	Cemented.	<i>E</i> .....	7	Elm (timber).
<i>Cl.</i> .....	7	Clincher (build).	<i>E.</i> .....	14	See SYMBOLS OF CLASSIFICATION at the beginning of KEY to REGISTER.
<i>Comp.</i> .....	7	Engines altered to Compound, with date thereof.	<i>Ex.</i> .....		Experimental.
<i>Comp.</i>	2	Composite (build).	<i>Expt. B. S.</i>	10	Vessels built experimentally and classed subject to Biennial Survey.
<i>Cont.</i> .....	10	Continued. With the name of Port of Survey and Date, also number of years for which the vessels are Continued on the Character A (thus, Cont. Lon. Dec. 36-8 years).	<i>Expt. T. S.</i>	10	Vessels built experimentally and classed subject to Triennial Survey.
<i>Ctr.</i> ...	2	Cutter.			<b>F.</b>
<i>Cy.</i> .....	7	Cylinders, with number of same prefixed. The figures after <i>Cy.</i> represent diameter of cylinders and length of stroke in inches.	<i>f.</i> .....	13	Equipment letter, as per Table No. 22.
			( <i>f</i> )	7	Shell of boiler made of iron; stays, end plates, furnaces, and combustion chamber of steel.
			<i>F.</i> .....	2	Felt.
			<i>F.</i> .....	7	Fir (timber).
			<i>F.</i> .....	5	Forecastle. See Illustrations of Types of Vessels following KEY to REGISTER.
			<i>F. D.</i> .....	5	Flush Deck. See Fig. 1 of Illustrations of Types of Vessels following KEY to REGISTER.
			<i>F. P. T.</i> ...	10	Fore Peak Tank. See Illustration following KEY to REGISTER.
			<i>f &amp; d</i> ...	2	Bottom felted and doubled with wood.
			<i>f &amp; dia. d.</i>	2	Bottom felted and diagonally doubled with wood.
			<i>F. &amp; Y. M.</i>	2	Sheathed with Yellow Metal over Felt.
			<i>F. S.</i> .....	10	Full Scantlings, carried to upper deck.
			<i>F. S. &amp; Awning dk</i>	10	Full Scantlings, carried to the deck below Awning deck.

*A List of Surveying Ports will be found at the end of the KEY TO REGISTER.*

KEY TO ABBREVIATIONS AND SIGNS—continued.

<b>G.</b>					
<i>g</i> .....	13	Equipment letter, as per Table No. 22.	<i>len.</i> .....	7	Ship lengthened.
<i>(g)</i> .....	7	Shell and end plates of boiler made of iron; stays, furnaces, and combustion chamber of steel.	<i>LA.ACF.</i> ...	12	Anchors and Chains proved at a Machine under the Superintendence of the Committee of LLOYD'S REGISTER. See Table No. 22.
<i>G.</i> .....	2	Galliot.	<i>I. M. C.</i>	7or8	Lloyd's Machinery Certificate, with date, denoting that the Machinery and Boilers are fitted in accordance with the Rules, and found at the time mentioned in good condition.
<i>G.</i> .....	7	Gum (timber).	* <i>I. M. C.</i>	7or8	Special Survey of Machinery during construction by the Engineer-Surveyors to LLOYD'S REGISTER.
<i>Ght.</i> ...	7	Greenheart (timber).	<i>Lr.</i> .....	2	Lugger.
<i>G. I. B.</i> ...	2	Fastened with Galvanised Iron Bolts.	<i>lrp.</i> .....	7	Large repairs to Hull of Ship.
<b>H.</b>					
<i>h</i> .....	13	Equipment letter, as per Table No. 22.	<i>lrp</i> .....	7	Large repairs to Machinery.
<i>(h)</i> .....	7	Shell, end plates, furnaces, and combustion chamber of boiler made of iron; stays of steel.	<i>Lv.</i> .....	13	Classification of the Liverpool Underwriters' Registry.
<i>H.</i> .....	2	Hoy (rig).	<b>M.</b>		
<i>H.</i> .....	7	Horizontal Engines.	<i>m</i> .....	13	Equipment letter, as per Table No. 22.
<i>H.</i> .....	5	House on Deck.	<i>(m)</i> .....	7	Shell of boiler made of iron; screw stays of steel; longitudinal stays of iron; remainder partly of steel, partly of iron.
<i>Hk.</i> .....	7	Hackmatack (timber).	<i>M.</i> .....	7	Mahogany (timber).
<i>Hva.</i> .....	7	Hemlock (timber).	<i>M. S.</i>	7or8	Machinery Surveyed, with date, denoting that the Machinery, though not fitted strictly in accordance with the Rules, was found, on inspection at that time, to be in good condition.
<i>HP</i> .....	7	Horse Power, according to ship's official register.	<i>M. T.</i> ...	10	Midship deep Tank. See Illustration following KEY to REGISTER.
<i>H. T.</i> .....	11	Half Time or Intermediate Survey held. (Section 34.)	<i>Mat.</i> .....	7	Materials, with number of years prefixed, indicates the different grades of Wood used in ship's construction, as per Table A.
<b>I.</b>					
<i>i</i> .....	13	Equipment Letter, as per Table No. 22.	<b>N.</b>		
<i>(i)</i> .....	7	Shell, stays, end plates, furnaces, and combustion chamber of boiler made of iron.	<i>n</i> .....	13	Equipment letter, as per Table No. 22.
<i>I. B.</i> .....	2	Fastened with Iron Bolts.	<i>(n)</i> .....	7	Shell of boiler made of iron; stays of steel; remainder partly of steel, partly of iron.
<i>(Iron.)</i> .....	2	Iron—material of Decks.	<i>n. B.</i> .....	7	New Bottom.
<b>J.</b>					
<i>j</i> .....	13	Equipment letter, as per Table No. 22.	<i>N. B.</i> .....	7	New Boilers.
<i>(j)</i> .....	7	Shell and stays of boiler made of iron; remainder partly of steel, partly of iron.	* <i>N. B.</i>	7	New Boilers specially Surveyed during construction.
<i>J.</i> .....	7	Juniper (timber).	<i>n. D.</i> .....	7	New Deck.
<b>K.</b>					
<i>k</i> .....	13	Equipment letter, as per Table No. 22.	<i>N. E.</i> .....	7	New Engines.
<i>(k)</i> .....	7	Shell and stays of boiler made of steel; remainder partly of steel, partly of iron.	<i>N. E. &amp; B.</i>	7	New Engines and Boilers.
<i>K.</i> .....	2	Ketch.	* <i>N. E. &amp; B.</i>	7	New Engines and Boilers, which have been specially Surveyed during construction.
<b>L.</b>					
<i>l</i> .....	13	Equipment letter, as per Table No. 22.	<i>nk1.</i> .....	7	New Keel.
<i>(l)</i> .....	7	Shell of boiler made of steel; stays of iron; remainder partly of steel, partly of iron.	<i>nk1en.</i> ...	7	New Keelson.
<i>L.</i> .....	7	Locust (timber).	<i>nrads.</i> ...	7	New Topsides.
<i>La.</i> .....	7	Larch (timber).	<i>nw.</i> .....	7	New Wales.
<i>LO</i> .....	7	Live Oak (timber).	<b>O.</b>		
<i>L.</i> .....	7	Lever Engines.	<i>o</i> .....	13	Equipment letter, as per Table No. 22.
<i>lb.</i> .....	7	(With figures prefixed). Boiler Pressure in pounds per square inch.	<i>(o)</i> .....	7	Shell, screw stays, end plates, furnaces, and combustion chamber of boiler made of steel; longitudinal stays of iron.

A List of Surveying Ports will be found at the end of the KEY TO REGISTER.

KEY TO ABBREVIATIONS AND SIGNS—continued.

Abbreviation or Sign.	No. of Col. in Register Book.	Signification.	Abbreviation or Sign.	No. of Col. in Register Book.	Signification.

P.			Sp. ....	2	Sloop.
p. ....	13	Equipment letter, as per Table No. 22.	Sq. ....	2	Square Rigg'd.
(p) ....	7	Shell and longitudinal stays of boiler made of iron; screw stays, end plates, furnaces and combustion chamber of steel.	Sr. ....	2	Schooner.
P. ....	7	Pine (timber).	Sw. ....	2	Snow.
P.B.H. ....	2	Partial Bulkhead, or Bulkhead not reaching to the Main Deck.	s.c. ....	7	Surface condensing.
PP. ....	7	Pitch Pine (timber).	Shack dk. ....	2&3	Deck of light construction and with openings in sides. See Fig. 7 of Illustrations of Types of Vessels following KEY TO REGISTER.
P. ....	5	Peep Deck. See Illustrations of Types of Vessels following KEY TO REGISTER.	Spar dk. ....	2&3	Built according to Rules for Spar-Decked Vessels. Section 42. See Fig. 9 of Illustrations of Types of Vessels following KEY TO REGISTER.
plk. ....	7	Plank.	srp. ....	7	Some repairs to Hull of ship.
pt. ....	2	Part.	s.s. ....	10	Special Survey of Iron or Steel ships.
ptOM. ....	7	Part Old Materials used in ship's construction.		11	Vessels submitted to Periodical Surveys, as prescribed in the Rules for Iron Ships (thus, s.s. Nwc. No. 1-86; s.s. Hull No. 2-86; s.s. Lon. No. 3-86).
Pad. ....	7	Paddle Steamer.	S.S. ....	11	Special Survey of Composite ships, with date, as per Section 43 of the Rules.
Q.			S.S. ....	10	Special Survey of Wood ships classed A or E, with the term of years granted them, and the year of Survey, as per Sections 61, 63, and 65 of Rules for Wood Ships (thus, S.S. Whn. 86-4 yrs.).
q. ....	13	Equipment letter, as per Table No. 22.		11	Special Survey. Date in red affixed denotes that the vessel has been surveyed at that time in accordance with the Rules for Wood Ships, Section 60, and the number of years indicates the term for which the vessel remains on this character (thus, S.S. Sid. 86-3 yrs.).
(q) ....	7	Shell, longitudinal stays, end plates, furnaces, and combustion chamber of boiler made of iron; screw stays of steel.		12	Special Survey. Date in red affixed denotes that the vessel has been surveyed at that time in accordance with the Rules for Wood Ships, Section 60, and the number of years indicates the term for which the vessel remains on this character (thus, S.S. Sid. 86-3 yrs.).
Q. ....	7	Quadruple expansion engines.			
Quad. ....	7	Engines altered to Quadruple expansion, with date.	(Stl.) ....	2	Steel, —material of Decks.
R.			T.		
r. ....	13	Equipment letter, as per Table No. 22.	t. ....	13	Equipment letter, as per Table No. 22.
(r) ....	7	Shell, longitudinal stays, end plates, furnaces, and combustion chamber of boiler made of steel; screw stays of iron.	(t) ....	7	Shell, screw stays, end plates, furnaces, and combustion chamber of boiler made of iron; longitudinal stays of steel.
Rest. ....	11	Restored. Thus, Rest. Lon. 86-5 yrs., denotes that the vessel was restored on the A character for 5 years from 1885, and that the Survey was held at London.	T. ....	7	Teak (timber).
retrid. ....	7	Re-treanled.	T. ....	7	Triple expansion engines.
Roof. ....	3	Vessel built under a roof, as per Section 48 of Rules for Wood Ships.	Tam. ....	7	Tamarac (timber).
RP. ....	7	Red Pine (timber).	tr.E. ....	2&3	Tiers of Beams with number of same prefixed (thus Str. B.).
R.Q.D. ....	5	Raised Quarter Deck. See Figs. 4 and 6 of Illustrations of Types of Vessels following KEY TO REGISTER.	t.s. ....	10	With a date denotes that the vessel has been submitted to Triennial Survey, as proscribed by Rules for Iron Ships (thus, "t.s. 86").
S.			Trpd. ....	7	Engines altered to Triple Expansion, with date.
s. ....	13	Equipment letter, as per Table No. 22.	U.		
(s) ....	7	Shell, stays, end plates, furnaces, and combustion chamber of boiler made of steel.	u. ....	13	Equipment letter, as per Table No. 22.
s. ....	2	Sheathed with Wood.	U.M. ....	2	Sheathed with Union Metal.
S. ....	7	Spruce (timber).	U. ....	2	Upper deck.
Sa. ....	7	Sablon (timber).	U-wa. ....	2	Upper deck sheathed or covered with wood.
Sl. ....	7	Saul (timber).			
Saltd. ....	3	Vessels salted in accordance with Rules. Section 37.			
Saltd† ...	3	The dagger signifies that the vessel's beams have not been salted.			
S. ....	2	Ship.			

A List of Surveying Ports will be found at the end of the KEY TO REGISTER.

**KEY TO ABBREVIATIONS AND SIGNS—continued.**

Abbreviation or Sign.	No. of Col. in Register Book.	Signification.	Abbreviation or Sign.	No. of Col. in Register Book.	Signification.
		<b>V.</b>			<b>SIGNS, &amp;c.</b>

WB= ..	10&	Water Ballast, with particulars. (See illustration following KEY.)	†	3	Following word <i>salted</i> signifies that the vessel's beams have <i>not</i> been salted.
Well deck	2	A Well decked Steamer is one having a fore-castle, and a long raised quarter deck or a poop joined to a bridge house, thus leaving the main deck exposed between the bridge front and the end of the fore-castle. See Figs. 5 and 6 of Illustrations of Types of Vessels following KEY to REGISTER.	—	14	Vessel at date mentioned, from reported defects, was not entitled to a character in Register Book.
w.f. & d	7	Wales felted and doubled with Wood.	5, 86	14	Vessel's class withdrawn from non-compliance at date mentioned with the Society's Rules.
w.f.&diad	7	Wales felted and diagonally doubled with Wood.	3, 85	13	Vessel's class withdrawn at Owner's request.
w f & s...	7	Wales felted and sheathed with Wood.	— (after character)	14	Equipment of vessel deficient either in quality or quantity.
WO. ....	7	White Oak (timber).	1	14	The figure 1 placed after a character signifies that the vessel is well and sufficiently equipped, as per Table No. 22.
w.s. ....	2	Sheathed with Wood (relating to Decks).	⊕	14	A black ring over the figure 1 indicates defects in Masts or Rigging imperilling the ship's safety.
w.s. ....	7	Wales sheathed with Wood.	Ⓢ	14	A red ring over the figure 1 indicates defects in Engines or Boilers of a steam ship imperilling the ship's safety.
		<b>X.</b>	2 or 3 Dts	5	Two or three Decks laid.
x.....	13	Equipment letter, as per Table No. 22.	2 or 3 trB.	5	Two or three tiers of Beams, with or without Decks on them.
		<b>Y.</b>	3 decked-rule	5	Built according to the Rules for Three-Decked Vessels, Section 41.
y .....	13	Equipment letter, as per Table No. 22.			
Y.M. ....	2	Sheathed with Yellow Metal.			
YP. ....	7	Yellow Pine (timber).			
Yt.....	2	Yacht.			
		<b>Z.</b>			
z.....	13	Equipment letter, as per Table No. 22.			
Z .....	2	Sheathed with Zinc.			

The Figures under a Character denote the date when the Vessel was last Surveyed.

The twelfth, thirteenth, and fourteenth Columns left blank, indicate that the Vessel has never been Classed in the Register Book.

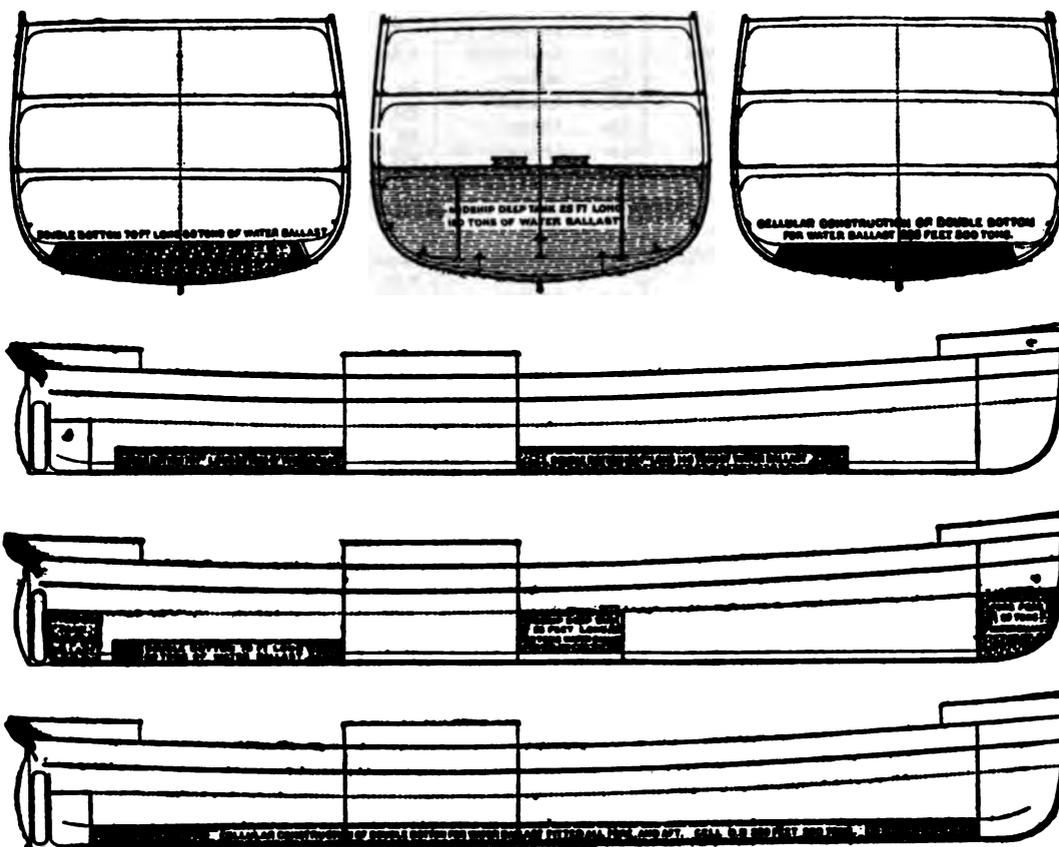

The Figures in the thirteenth column, to vessels in the classes A in red, M or E class, imply that they were originally classed A for that number of years.

When the fourteenth column is left blank except as regards the date of Survey last recorded, it indicates that the Character has expired or been withdrawn from absence of Survey, or on account of non-payment of fee due in the case.

## KEY TO ABBREVIATIONS.

### Illustrations of Notations in the Tenth Column of the Register Book, in regard to Double Bottoms and Water Ballast Tanks:—

- WB= DB.70ft.80tons* : denoting Double Bottom 70 feet long ; capacity, 80 tons.  
*WB= DB.a.58ft.f.40ft.180tons* : denoting Double Bottom, aft 58 feet, forward 40 feet long ; total capacity 180 tons.  
*WB= DB.a.73ft.under E.&B.23ft.280tons* : denoting Double Bottom aft 73 feet long, and under Engines and Boilers 23 feet long ; total capacity, 280 tons.  
*WB= Cell. DB.290ft.500tons* : denoting cellular construction of Double Bottom 290 feet long ; capacity, 500 tons.  
*WB= F.P.T.80tons* : denoting Fore Peak Tank ; capacity, 80 tons  
*WB= A.P.T.8tons* : denoting After Peak Tank ; capacity, 8 tons.  
*WB= M.T.25ft.180tons* : denoting Midship deep Tank, 25 feet long ; capacity, 180 tons. See Diagrams.

*N.B.—When part of the record of Water Ballast is encircled in red ink, thus:—WB= DBa58ft.f.40ft.180tons, do., it signifies that the Vessel is fitted with tanks to the extent named, but at the date of the last survey the encircled portion was not being used for the purposes of Water Ballast, and the pipes, &c., thereto have been disconnected.*

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING.

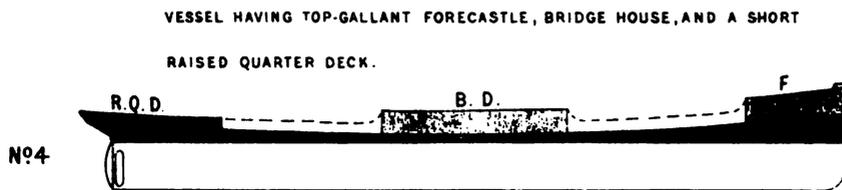

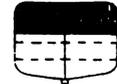

SKETCHES ILLUSTRATING THE DIFFERENT TYPES OF VESSELS  
 CLASSED IN THE REGISTER BOOK

TRANSVERSE  
 SECTIONS.

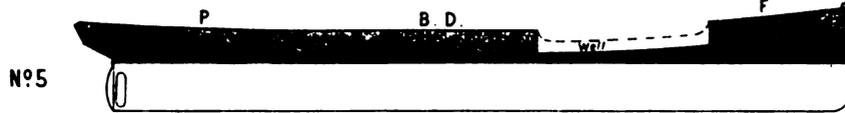

Bridge House  
 within Bulkhead  
 at end.

Short Raised  
 Quarter Deck  
 Bridge House

VESSEL HAVING TOP-GALLANT FORECASTLE WITH A LONG POOP AND BRIDGE HOUSE COMBINED. KNOWN AS A "WELL-DECKED VESSEL"

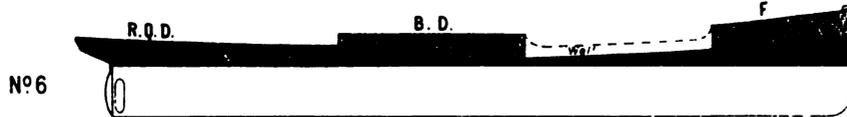

TRANSVERSE SECTIONS.

Long Poop & Bridge House combined with Iron Bulwarks on top

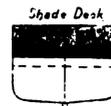

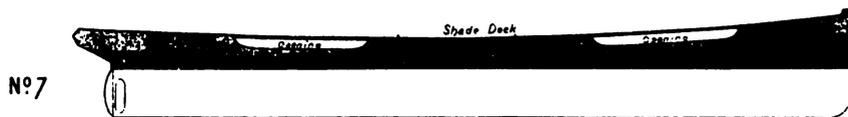

VESSEL HAVING TOP-GALLANT FORECASTLE WITH A LONG RAISED QUARTER DECK AND BRIDGE HOUSE COMBINED ALSO KNOWN AS A WELL-DECKED VESSEL

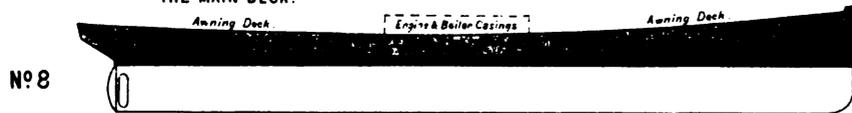

Long Raised Quarter Deck and Bridge House

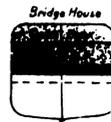

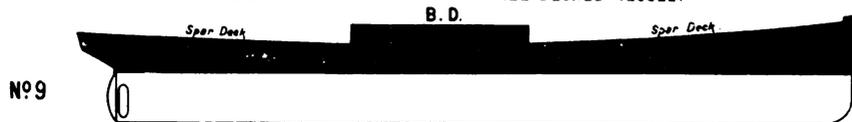

"SHADE DECKED VESSEL" THIS TYPE OF VESSEL HAS A CONTINUOUS UPPER DECK OF LIGHT CONSTRUCTION AND WITH OPENINGS IN THE SIDES.

"AWNING DECKED VESSEL" THIS TYPE OF VESSEL HAS A CONTINUOUS UPPER DECK OF LIGHT CONSTRUCTION AND THE SIDES COMPLETELY ENCLOSED ABOVE THE MAIN DECK.

"SPAR DECKED VESSEL" THIS TYPE OF VESSEL IS CONSTRUCTED WITH THE SCANTLINGS ABOVE THE MAIN DECK HEAVIER THAN IN AN "AWNING DECKED VESSEL" BUT NOT SO HEAVY AS IN A "THREE DECKED VESSEL"

# REGISTER.

\*. \* Additional Ships are inserted in the Supplement at the end of the Register.

**N.B.**—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs to ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships, or machinery, repaired at ports where there is a Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or on other causes, rests with the Owners, Masters, or Agents.

\*. \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\*. \* Additional Ships are inserted in the Supplement at the end of the Register.

**N.B.**—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or other cause, rests with the Owners, Masters, or Agents.

\*. \* Additional Ships are inserted in the Supplement at the end of the Register.

**N.B.**—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by its Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of from other causes, rests with the Owners, Masters, or Agents.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyor. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\*. \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\*. \* Additional Ships are inserted in the Supplement at the end of the Register.

**N.B.**—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\*. \* Additional ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of gear or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or machinery repaired at ports where there is no surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it hereby intimates that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or on other causes, rests with the Owners, Masters, or Agents.

\* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or on other causes, rests with the Owners, Masters, or Agents.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

**N.B.**—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\*. \* Additional Ships are inserted in the Supplement at the end of the Register.

**N.B.**—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\*. \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, &c. from other causes, rests with the Owners, Masters, or Agents.

\*. \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\*. \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\* Additional Ships are inserted in the Supplement at the end of the Register.

**N.B.**—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving *Notices of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\*. Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\*. \* Additional Ships are inserted in the Supplement at the end of the Register.

**N.B.**—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

No. 123.—Zuria. Freeboard discontinued by Owners, April, 1889.
